Mounting Requirements

The IMx is designed to be mounted to a heat sink or inside a panel. IMS offers both a Heat Sink Kit (H-4X) and Side Mounting Clips (U3-CLP)

H-4X Heat Sink Kit

- A** (4) 6-32 x 1/2 Screws
- B** (4) #6 Split Lock Washers
- C** (4) #6 Flat Washers
- D** (1) TN-48 Non-Isolating Thermal Pad, Adhesive Side to Drive

U3-CLP Side Mounting Clips

- A** IM483 or IM805
- B** #10 Mounting Hardware (Not Supplied)
- C** (2) U3-CLP Mounting Clips
- D** Mounting Panel or Plate

Controlling the Output Current

A Current Adjustment Resistor is REQUIRED to operate the IMx driver. Optionally, the output current may be automatically reduced to a holding current level after a motion completes.

Connecting Motor and Motor Power

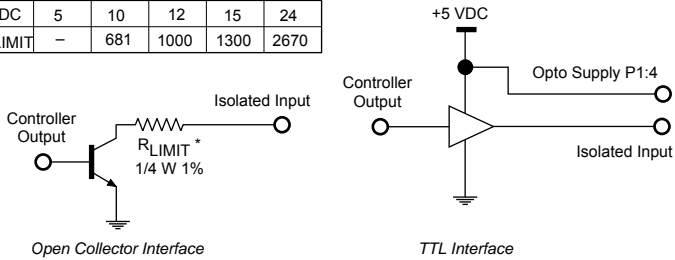

This document shows connection of a 4-lead stepping motor. For 6 and 8-lead motor connection see the product manual. Use the table on the right to determine the acceptable per-phase inductance.
